'Another thing: when you reinstalled did you restart your Mac between uninstalling and reinstalling? I've had issues with some
Steam service not getting terminated which causes problems.. I have tried uninstalling and reinstalling Steam but for some
reason I get the same issue every time.. My Macs are permanently in dev mode so no hidden folders THFourteen 21 Feb 2017

You will still have access to your 32-bit Mac games in your Steam Library.. 9 5 It doesn't seem too old Should I update? Would this be causing the issue? Beetroot_Bertie 23 Feb 2017 00:45:52 515 posts Seen 12 hours ago Registered 13 years ago @TAJB The folder should be in the Library folder within your user directory:Macintosh HD > Users > Your Username > Library > Application Support > SteamIf you were using the 'Go to Folder' command in the finder

menu it would be: ~YourUsername/Library/Application Support/Steam TAJB 23 Feb 2017 08:51:15 1,221 posts Seen 3 years ago Registered 6 years ago So I just searched my steam folder and found no Registry.. It forces it to rebuild them which then often cures the issue The Mac client is a shonky abomination sadly..
